***EPA Concurrence: Navy request (dated 8 December 2010) to extend the submittal date for the Naval Air Station (NAS) Pensacola Operable Unit (OU) 21, Site 46, Former Building 72 Draft Proposed Plan***

Dear Ms. Whittemore:

EPA Region 4 received the revised schedule of work for Operable Unit (OU) 21/Site 46 from the Navy on 8 February 2011. Per the terms of the Federal Facility Agreement (1990) for this Superfund site, Navy submission of the revised schedule completes the Navy's 8 December 2010 written request to extend the submittal date for the Operable Unit (OU) 21/Site 46 draft Proposed Plan to 14 February 2011. The purpose of this letter is to provide EPA concurrence on the subject extension request: good cause was demonstrated (a delay caused by another party's failure to meet any requirement of the FFA), and the proposed schedule of work for OU 21 is acceptable. Accordingly, the FY2011 Site Management Plan is amended to incorporate the revised OU 21 schedule of milestone and target dates.

Please do not hesitate to contact me via electronic mail at [corkran.julie@epa.gov](mailto:corkran.julie@epa.gov) or at 404-562-8547 if you have any questions about this correspondence.

Sincerely,

A handwritten signature in black ink that reads "Julie L. Corkran".

Julie L. Corkran, Ph.D.  
Senior Remedial Project Manager  
Federal Facilities Branch  
Superfund Division
